

## Job description

Structural Engineer

£30,000 - £36,000

Wantage, Oxfordshire

We are a small design led structural engineering consultancy based in Oxfordshire and are expanding. We are looking for a Structural Engineer on a full-time, permanent basis. This is an established business where we create innovative design on projects ranging in size from the very small to high end.

Requirements:

- A degree in civil or structural engineering,
- A minimum of 3 years' post-graduation experience in structural engineering using British Standards and Eurocodes,
- Have experience of structural engineering for residential properties and design using steel, timber and reinforced concrete.
- Proficient in the use of Tedds and AutoCad,
- Must have an excellent understanding of building structures
- Be a strong communicator, both written and verbal
- Confident working autonomously
- Have a car and full driving license.

This is an opportunity for an experienced and motivated Structural Engineer, who is passionate about design, to join an expanding structural engineering firm. This is a full time, permanent role, however part time may be considered for the correct candidate. The role can be offered hybrid with a minimum of 2 days per week to be at the office in Wantage. The post holder would be expected to carry out site visits within Oxfordshire and the surrounding counties.

If you would like to apply for this role, please send a covering letter showing how you meet the requirements of the role with an up-to-date CV to Andrew Connor, [mail@structural-designs.co.uk](mailto:mail@structural-designs.co.uk), to be considered.
